

# Design Concept Report (DCR) and Environmental Overview (EO) Project Newsletter

## 7 Potential Built Alternatives: Sundog Connector

7 potential build-alternatives are undergoing the preliminary alternatives analysis screening process.

## Project Updates

- Project team temporarily paused advancement of technical work during December – March to identify greater detail regarding development agreement progress.
- Sundog Connector No-Build Alternative was defined to represent current conditions with no related roadway additions or improvements.
- 7 potential Build Alternatives were developed for preliminary alternative analysis.
- Stakeholder Committee Meeting #2 held on May 24th.
- Alternative analysis is currently being conducted.

## On-going Public Engagement Activities

As part of the Sundog Connector Design Concept Report / Environmental Overview, CYMPO staff has continued to engage with the public at various outreach events, including Project Stakeholder Committee Meetings, Project Open House #1, local radio programming, Republican Women of Prescott luncheons, League of Women Voters, Sunup Rotary Club, and Prescott Chamber of Commerce CEO Roundtable.

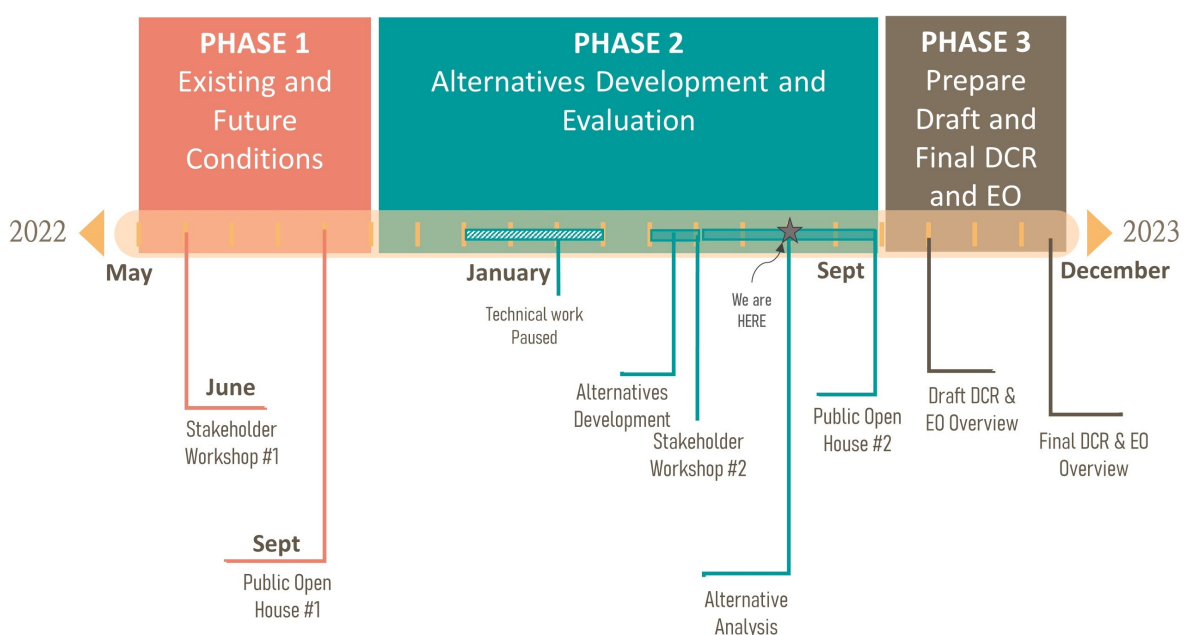

### Stakeholder Committee & Public Survey Activity TAKE THE SURVEY

The Sundog Connector DCR/EO technical team is currently conducting an alternatives analysis on proposed build alternatives assessed against the no-build alternative. As part of this assessment the Sundog Connector DCR/EO technical team would like to seek input, through this survey, from the project stakeholder committee members and public on feedback related to specific features associated with a potential build alternative.
